

## Wondering Khokon arriving to Civil Service

Khokon Sarkar 7 years old boy, born in a very poor peripheral family, his father works as hair dresser, living even without 2 meals in a day wondering around. Our IIMC Education Team identified him and discovered he is interested for schooling, and so organized his school admission; he was bright in the school. When he reached level IV class our UK Coordinator, Tony Jackson found a good friend Tracy Ford to support his education and become sponsoring parents.

Khokon continued with this sponsorship support which nourished him mentally, socially and allowed him to feel confident and in farther got necessary support for books, pens, pencil, garments, some food etc. and even time to time he was asking extra exercise books, pens, papers because he is bright, he took all the challenges studying in kerosene lamp, sometimes under a tree on his way to school and so on.

His result in the high school was in 1<sup>st</sup> class, he continued in the university, again 1<sup>st</sup> class, now he is 22 years appeared for a job as teacher in high school. He got it as he is brilliant, he was teaching and was studying even during his train journey to his job place and in 2019 appeared West Bengal Civil Service Exam – again successful and now he will join in Govt. as civil service officer last week, visited our IIMC and our office with packets of sweets.

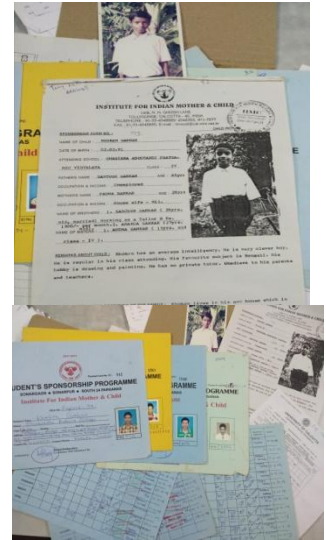

Congratulation Khokon and Congratulation Tracy Ford, IIMC UK and IIMC Education Team. One nearly lost child now joining with Govt. Civil Service as Block Development Officer – we all are proud of his success. Khokon wants to sponsor a poor student who needs support – this is Bravo, Khokon was supported and now he will support one or more.

Many talents are there in our peripheral poor families – they need opportunity and IIMC education programme create the opportunity with many of our supporting sponsoring friends nationally and internationally.

Possibly we can't change the world, but we can change someone who will change others and this chain of change will remove the poverty, illiteracy and inequality.

Thanks to everyone who are with us for this change programme.

IIMC Education Sponsorship Project will continue and many children will get chance to change, better future and better life for everyone.

*We shall do something more  
There will be change  
Life will be different  
We all are sure.*

*Dr. Sujit*  
IIMC – Mission.
